

# MANISH SINGH

## (Full Stack Developer)

✉ [29manish2001@gmail.com](mailto:29manish2001@gmail.com)  [www.linkedin.com/in/manish-singh-86a120277](https://www.linkedin.com/in/manish-singh-86a120277)  8290329276

### ACADEMIC QUALIFICATION

---

<b>B.Tech. in IT</b> Government Engineering College, Bikaner	2018 – 2022 Agg - 8.23 CGPA
<b>Class XII</b> M.B International School, Kota	07/2017 –05/ 2018
<b>Class X</b> M.B International School, Kota	07/2015 – 05/2016

### TECHNICAL SKILLS

---

**Languages:-** C, C++, JavaScript

**IT Constructs:-** DS and Algorithms, OOPs

**Development Tools:-** Visual Studio, Google Colab, Google Cloud Platform

**Frameworks:-** Nodejs, Reactjs, Redux, MongoDB, Bootstrap

**DB Language:-** PostgreSQL, MySQL

### Work Experience

---

**Navsoft Training and Development Services Pvt. Ltd.** From SEP2022 - Till Present

Working as a trainer here since last 1+ year. I have trained more than 250 people in web development.

I provide training in below technologies.

- HTML
- CSS
- BOOTSTRAP
- EXPRESS JS
- JAVASCRIPT
- REACT JS
- NODEJS
- MONGO DB

### PROJECTS Completed As Freelancer

---

#### LIVE PROJECTS:

- **Education Website:-** In this project I develop an admin dashboard where admin performs CRUD operation on students or faculty. Where faculty access his allotted batch student, view his weekly performance through graphs and take online tests, users can enroll in multiple courses and purchase these courses.
- **E-Commerce Website:-** It is a single vendor application where admin manages various tasks like add, delete, update product. Here I am using stripe for payment method.

#### MAJOR PROJECTS:

- **Netflix Clone:-** Technologies use Reactjs, Nodejs, MongoDB, Expressjs, Redux toolkit etc. User login, signup using Jwt token.
- **Instagram Clone:-** Technologies use Reactjs, Nodejs, MongoDB, Expressjs, Redux toolkit etc. User login, signup using Jwt token. Users post their photo or video, follow or unfollow, comment on user photos.

#### MINOR PROJECTS

- **To Do List App:-** In this project user add task according to himself select date to complete task or mark as completed as checkbox using full MERN stack.
- **Chat App:-** Using Redux toolkit and redux, react completes my first application.

### EXTRA CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- 
- NPTEL certification in OS.
  - Codechef 2 star
  - Google Cloud Arcade
  - AWS Cloud
